U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On June 1, 1975

- Export shipments in
Current Marketing Year

- Daily Sales reported
June 2, - 10, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of June 12, 1975 (based on reports from exporters during the week ending June 1, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) increased by 77,300 metric tons (MT), bringing 1974/75 wheat commitments to 30.4 million MT. With the export estimate revised downward by 1.3 million MT to 28.6 million MT, the total wheat commitment now exceeds the new estimate by some 6 percent. For 1975/76 shipment, commitments to Japan rose by 89,500 MT while commitments to Iran declined by 50,800 MT.

Feedgrains: The apparent export commitment for 1974/75 fell by 134,800 MT, bringing commitments to date to 36.6 million MT--still about 10 percent above the unchanged export estimate. Total corn commitments declined by 70,100 MT with a higher commitment to Spain of 94,800 MT more than offset by lower commitments to Japan and the European Community (EC) of 59,900 MT and 50,800 MT, respectively, and a decline in commitments to unknown destinations of 98,200 MT. Sorghum commitments were lower by 84,700 MT, with a decline in the commitment to Japan of 50,800 MT among minor changes to a number of destinations.

Rice: The apparent export commitment for 1974/75 increased by 17,900 MT on the basis of minor changes to several destinations. Commitments of 2.26 million MT approximate the current export estimate of 2.325 million MT.

Soybeans: The apparent export commitment decreased by only 6,200 MT. France became the only EC country with no remaining sales contracts outstanding. During the week, 159,000 MT were exported, primarily to Japan and EC destinations. In order to reach the USDA estimate of nearly 10.9 million MT, the weekly level of exports for the remaining 13 weeks of the season would need to average **77,000 MT**. Brazil is currently formulating its soybean support and sales policy and these decisions could be a major factor in the level of U.S. exports during the remainder of the season.

Soybean Meal: Export commitments declined by 87,000 MT, primarily to unknown destinations and Canada. Commitments increased to the EC and Poland. Exports during the week totaled 72,000 MT, primarily to EC destinations (47,800 MT) and Hungary (15,500 MT). The first sale of the season of 5,000 MT to Egypt was reported. U.S. domestic crush fell to 57.3 million bushels in April and prospects for any increase in May appear poor.

Soybean Oil: The apparent export commitment remained unchanged from that of the preceding week. Of the 8,800 MT exported during the week, Mexico purchased 2,800 MT; Tunisia 2,100 MT; Ecuador 1,500 MT; and Japan 1,500 MT.

Cotton: Moderate sales for delivery before August 1, 1975, continued with some foreign mills in Canada and the Republic of China (Taiwan) apparently finding it necessary to supplement reduced stocks to cover nearby commitments. Interest in 1975/76 delivery was again slack. Cancellations for this marketing year were insignificant with the 29,000 running bales (RB) indicated actually a technical adjustment to correct previous reporting errors, especially for Japan.

With weekly exports of 93,000 RB, shipments for May appear to have approximated the February seasonal high of 409,000 RB. The 1974/75 USDA export projection was increased 200,000 RB to 3.7 million RB.

OUTSTANDING EXPORT SALES AND EXPORTS - MARKETING YEAR 1974-75
